 Pebble 404 Interagency Coordination Summary\_5-29-20\_working draft.docx

---

<!--[endif]-->

Just a reminder, I would appreciate your comments/edits by COB today on this summary of our recent coordination with the Corps and USFWS.

**Subject:** Draft Summary of CWA Section 404 Coordination Regarding the Proposed Pebble Mine

Folks

In order to document the results of our 12-week intensive Section 404 coordination with the Corps and USFWS regarding the proposed Pebble Mine, I've drafted the attached summary of the Corps, EPA, USFWS interagency team's key findings and areas of agreement. I think there is real value in documenting these important findings and areas of agreement, even if only in our agency records.

You will be very familiar with much of the substance of this summary, it's 9 pages, including an attachment documenting the meeting schedule.

I consciously omitted any discussion regarding the 404q MOA and how that transpired. While it is certainly related to the 12-week 404 coordination effort I felt like it was most useful for this document to focus on the substantive findings and areas of agreement reached by the interagency team and did not want to distract from that with the 404q story. Perhaps there is another place to record the 404q story.

Please provide your comments in redline/comment bubbles by COB Tuesday 6/2.

Thanks, Palmer
